Aqira Child Safety Standards Policy

Effective date: November 28, 2026

1. Our commitment and scope

Aqira has zero tolerance for child sexual abuse and exploitation (CSAE) and child sexual abuse material (CSAM). For this policy, a child is anyone under 18. These standards apply to all Aqira accounts, profiles, messages, media, live broadcasts and interactions, including AI-assisted features.

2. Adults only

Aqira is for adults aged 18 and over. Children must not register or use Aqira. Accounts identified as belonging to a person under 18 are subject to restriction or removal. This policy supplements, and does not replace, Aqira's existing Age Policy.

3. Prohibited content and conduct

Creating, uploading, requesting, sharing, selling or facilitating access to CSAM is prohibited, including digitally generated or AI-generated material depicting child sexual abuse. Sexual grooming, sexual solicitation of minors, child sex trafficking, exploitation, sextortion, and attempts to evade child safety or age restrictions are also prohibited.

4. Report a concern inside Aqira

Use Report from a profile, conversation or live stream. Select "Child sexual abuse or exploitation (CSAE)" for suspected sexual abuse or exploitation, or "Underage user" for a person you believe is under 18. Add relevant account, stream or message identifiers and a short explanation, then submit without leaving the app. You can also contact safety@aqira.app.

Do not download, copy, forward or attach suspected CSAM. Reports do not automatically provide moderators with the decrypted contents of end-to-end encrypted private conversations. Describe the concern and relevant identifiers without redistributing illegal material. If a child is in immediate danger, contact local emergency services or law enforcement.

5. Review and enforcement

Authorized administrators review reports through Aqira's existing moderation tools. Child safety concerns are treated as urgent. Depending on the information available, actions include removing or disabling access to content under Aqira's control, ending live broadcasts, and restricting or banning accounts. Aqira does not claim that every private message or live broadcast is automatically screened, or that reports receive continuous real-time monitoring.

Upon obtaining actual knowledge of CSAM, Aqira will promptly remove or disable access to it in accordance with applicable law. Relevant records are handled only by authorized personnel and preserved where legally required. Users must not collect or redistribute suspected CSAM as evidence.

6. Legal compliance and reporting

Aqira complies with applicable child safety laws and regulations. Authorized personnel manually report confirmed CSAM to the National Center for Missing & Exploited Children (NCMEC) or the relevant regional authority, as required by applicable law, and cooperate with legally authorized investigations. Reports to authorities are handled by personnel; they are not sent through an automated NCMEC integration.

7. Child safety point of contact

Name: Yağızcan Yavuz
Email: safety@aqira.app
This contact receives child safety concerns and coordinates responses to Google Play and competent authorities concerning Aqira's CSAE prevention and enforcement procedures.

8. Related policies and updates

These standards apply alongside the Age Policy and Aqira's other policies at https://www.aqira.app/policies-and-terms. Changes to these standards will be published on this permanent public page:
